Dedication

Mrs. Dorothy Howland

As innovator at Vocational of the Laboratory Nursery School, as an active member of the American Red Cross and organizer of the Vocational Chapter of the Junior Red Cross, as past president of the Massachusetts Vocational Association, and as a member of numerous organizations and committees designed to raise homemaking and child care standards, MRS. HOWLAND has brought the highest standards of dedication to her students, her profession, and her community.

For her constant efforts to improve American family life through education, for her patience and understanding, for her sincere personal interest in her students and graduates, the Class of 1961 wishes to dedicate the *Mariner* to MRS. DOROTHY HOWLAND.

Dedication

Mr. Thomas J. Mulvey

Forty-four years of devotion to teaching certainly cannot be rewarded by a single dedicatory yearbook page. The Class of 1961 would, however, like to add its thanks to those of hundreds of former graduates to Mr. Mulvey — for his dedication to his profession and his students, for his enthusiasm both as a teacher and as a coach, for his fairness, and for his high standards.

May the future bring him years that are as full and as successful as the past.

We the class of 1961 wish to extend our deep appreciation for the many hours of work that the boys of the Industrial Design Dept. have contributed in helping to make our Year Book a success.

Very special thanks to

In Memoriam

It would not be right for us to turn the pages of this book without remembering, for a moment, one classmate who will not cross the stage with us at graduation time.

Bill Luby *was with us during our freshman and sophomore years. He looked forward to being a Senior just as we did, until his life was taken in a tragic accident during the summer of 1959.*

We remember him now as a "regular guy" — attending our classes, working and laughing with the rest of us, getting into the same scrapes, loyal to both his classmates and school.

It is to his memory that this page is sincerely dedicated.

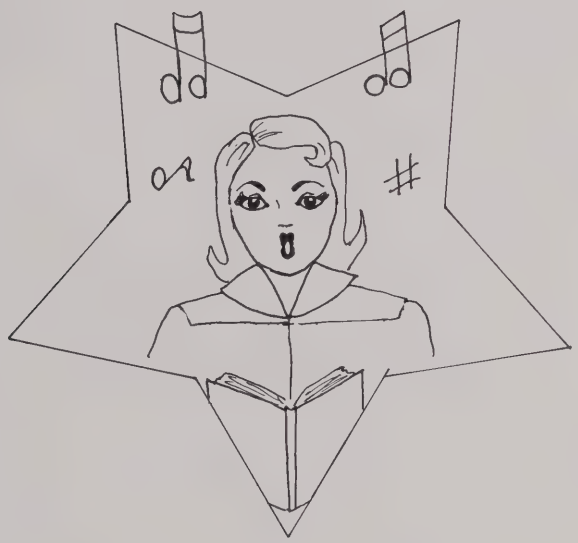
The nursery school, under the direction of Mrs. Thelma Bagley, is a laboratory for the girls in the junior year of the homemaking course. Students have the opportunity to observe first-hand the physical development, behavior traits, and social and emotional adjustments of children three to five years old. Normal situations are provided so that pupils can appreciate the relationship of good mental health to healthy personality. As a result, students are led to better understand themselves through the study of children.



The Glee Club of New Bedford Vocational High School consists of approximately thirty-five girls. Under the direction of the devoted Mr. Rudolph Godreau and accompanied on the piano by Mrs. Godreau, the group has taken part in many of our school assemblies, in "Showtime", and has participated in New Bedford's "Music Week". The Club's faculty advisor is Mrs. Thelma Bagley, and its secretary, Carole Ann Zalenski.

Many thanks to the faculty members and the students whose time and efforts have been contributed to this important supplement to our school life.
